

**UGI’s Stakeholder Engagement**

UGI actively engages with its stakeholders across a variety of platforms and mediums to understand their needs, priorities, and expectations so that we can provide relevant and meaningful information on those topics. These engagements help strengthen our relationships with our stakeholders as we remain committed to delivering affordable, reliable, and sustainable energy solutions to our customers. UGI’s stakeholders include, employees, customers, communities, government (federal, state, and local), industry associations, and shareholders. Our engagement approach varies based on stakeholder group.

In Fiscal 2021, the Company launched its first global employee engagement survey. The survey was completed by more than 7,000 employees across our organization. While it offered employees an anonymous forum for providing candid and thoughtful feedback about the Company and engaging with management, it also informed the Company of potential opportunities for change.
